EXPERIENCE

Money Envelopes

For personal use - 2025

- A web application for managing personal finances using the envelope budgeting method. Developed with Django, it helps users organize their expenses and savings efficiently.

Gestión de Banco

For personal use - 2025

- A Point of Sale (POS) system designed for small businesses. Built with React and Django, it still in development but aims to provide a user-friendly interface for managing sales, inventory, and customer data.
